Objective

A disciplined and curious Computer Science Engineering student seeking an entry-level position to apply my technical skills in software development, and programming. Eager to contribute to innovative projects and grow as part of a dynamic tech team while continuously learning and improving.

Experience

Sikharthy Infotech Pvt. Ltd.

Web developer Intern   05-08-2024 - 12-09-2024

I interned at Sikharthy Infotech Pvt Ltd as a Full Stack Web Developer, specializing in front-end development. I developed expertise in HTML, CSS, JavaScript, and front-end frameworks, creating responsive and intuitive user interfaces.

InfinityBit Pvt. Ltd.

MERN Stack Graduate Intern   01/08/2025 - 01/11/2025

I developed expertise in JavaScript , TypeScript , React Js, Tailwind Css, Zustand, TanStack Query, Zod , and TanStack Table to create interactive, user friendly, scalable, and responsive user interfaces. Worked with a team collaboration using git and created a Driving School Registration System.

Sure Trust ProEd

Full Stack Developer Training & Internship Program   01/06/2025 - 30/12/2025

It was a 4 months training and 2 months internship program. I developed my skills on HTML, CSS, Tailwind CSS, JavaScript, TypeScript and React Js . Worked with team collaborations in Git.
Creating a full fledged clone of Flipcart App as our final project.

Education

Greater Kolkata College of Engineering & Management (MAKAUT)   2025
B. TECH IN COMPUTER SCIENCE & ENGINEERING - 74.29%

Raghunathpur Government Polytechnic College (WBSCTVESD)   2022
DIPLOMA IN COMPUTER SCIENCE & TECHNOLOGY - 86.6%

Rajasthan Vidyapith Purulia (WBCHSE)   2019
HIGHER SECONDARY (XII) - 71.40%

Rajasthan Vidyapith Purulia (WBBSE)   2017
SECONDARY EDUCATION (X) - 57.14%

Skills

PROGRAMMING LANGUAGE:
C,C++,Core Java, Python   WEB TECHNOLOGIES:
HTML5, CSS3, Tailwind Css, JavaScript, TypeScript, React Js, TanStack Query, Zustand, Zod, TanStack Table.
Express, and Node Js   DBMS:
MongoDb   DSA in C

Projects

LCG Polytechnic College Website
Developed LCG Polytechnic College's website, offering comprehensive information on:

- Academic programs
- Faculty profiles
- Facilities and admission procedures.

GitHub Link:- https://github.com/RAJ08121999/LCGCollegeWebsite

Driving School Registration System

Developed a comprehensive Driving School Registration System using ReactJs, TypeScript, TanStack Router, TanStack Table, TanStack Query and Tailwind CSS. The system enables seamless CRUD operations, allowing administrators to efficiently manage student registrations. The TanStack Table component is utilized to display detailed records, providing a user-friendly interface for data visualization and management.
GitHub :- https://github.com/RAJ08121999/InfinityBit/Week7/DrivingSchool

Bank Management System using C (Console Based)
Developed a console-based Bank Management System using C, enabling users to:

- Create accounts

- Deposit funds

- Withdraw money

- Check balance

The system utilizes binary files for secure data storage, ensuring efficient management of user account information.

GitHub Link:-https://github.com/RAJ08121999/Bank_Management_Using-C

Console Based User Management System Using C
Allows users to register themselves and login using their credentials, providing a basic authentication mechanism.

Interests

- Meditation
- Listening Music
- Participating in social programs (regular blood donor).

Member of West Bengal Vigyan Mancha, working to eradicate superstitions, misconceptions, and social evils, promoting education and civility among people.

Language
